

SATIN

High Performance Matte Surface Protection

Nanotek® Satin combines stealthy elegance with advanced technology protection. Designed for enthusiasts who appreciate understated style without sacrificing performance, Nanotek® Satin delivers a smooth satin-matte finish that enhances vehicle aesthetics while offering advanced surface defense.

This premium paint protection film is engineered to be stone-chip resistant, scratchproof, and dirt-repellent, ensuring your vehicle remains flawless under daily wear or harsh conditions. With self-healing properties, minor scratches vanish with heat, keeping your vehicle looking freshly wrapped.

FEATURES

- Self-healing technology
- Super matte finish
- Ultra-smooth and high gloss top layer
- Elasticity up to 280%
